

# Mobile CCTV Monitoring System & Remote Traffic Monitoring System (Skycam)

## For Construction Site Supervision

- OST is the approved contractor by the regulators;
- Specialties in CCTV for construction worksite, tower crane, sky camera and time lapse videography;
- We advise and assist contractors to ensure they meet all the compliance requirements set forth by the regulators;
- 24/7 site/road monitoring system;
- 5 minutes snapshot can be viewed online and via mobile;
- Backup power supply to ensure continuous operation;
- Using wireless/3G/4G/antenna technology for internet access;
- Advanced high efficiency green energy management system for CCTV to conserve power usage via solar energy.

### Mobile wireless CCTV Monitoring System

- Approved by PUB, LTA and HDB;
- Real-time “live” monitoring of worksite activities;
- With viewable and recordable on internet by authorised personnel with user ID and Password protected;
- Expandable NVR up to 16 channels to allow real time viewing and recording;
- Full remote/playback/snapshot/download control capability;
- Green energy management system;
- Full – time recording up to 60 days;
- Using wireless 3G/4G LTE via M2M SIM card or antenna.

**Project reference:** PUB-SGT, ER391, T2188, 2ASG, woodlands health campus, Jurong West N2 C20 and etc.

### Remote Traffic Monitoring System (Skycam)

- Approved by LTA;
- Supply and maintain a remote traffic monitoring system with video cameras;
- Capable Using advance technologies, antenna or wireless to create access point, coverage more than 10km;
- Site managers and project team is able to access 24/7 over internet in order to efficiently manage construction at one glance;
- Green energy management system;
- Video recording available according to the regulator’s requirements;
- Using wireless 3G/4G LTE via M2M SIM card or antenna.

**Project reference:** DE123, DE143, ER368, ER442, ER443, ER449, ER458, ER459 and etc.
